OPERABLE UNIT 4 (OU-4) REMEDIATION LINER REMOVAL - NMH-568-93

During our meeting October 15, 1993, you stated that M. Hestmark of the Environmental Protection Agency (EPA), and G. Baughman of the Colorado Department of Health (CDH), had concurred that OU-4 pond liners could remain in place for remediation. This is not consistent with the stance taken by Harlen Ainscough of CDH in our weekly OU-4 remediation working sessions.

Please provide us with any documentation regarding this concurrence so our working group can resolve this issue. As you are aware, liner removal, packing, shipping, and disposal as a low level mixed waste (LLMW) is a large cost and, if required, will adversely impact the ER program's budget.

Please respond by November 12, 1993. If you have questions on this issue, please contact Steve Keith at extension 8541 or Andy Ledford, extension 8673.
